

Cerec® Advanced Training

EXPAND YOUR SKILLS, CREATE VALUE

Comprehensive courses are designed to enable you to utilize technology, learn the best office management, and achieve your full potential.

You will learn how to easily and seamlessly integrate it into your practice and train your staff to support you.

COURSE CURRICULUM AND DESCRIPTION

LIVE CEREC PRESENTATION

This presentation features a one-on-one and hands-on training session with a focus on the posterior quadrant restorations, crowns, onlay and inlay restorations using correlation and inverse correlation, and antagonist and dental database. A clinical presentation to review and assess prepping, powdering, optical picture, as well as polishing and glazing, will be covered.

INTEGRATION TO THE DENTAL PRACTICE

The Cerec® offers significant benefits to your practice as well as to your treatments. This aspect of the curriculum will promote best practice techniques, team coherency, value creation, and the hygienist's role in the process. You will learn how you and your staff can speak the Cerec® language, discuss specifics in detail, and explain and create value for Cerec® restorations vs placing composites or amalgam restorations. Also covered in this segment will be patient case presentation, proper insurance coding, financial options for case acceptance, and team/patient incentives and communication.

Cerec® Live Demonstrations

EXPAND YOUR SKILLS, WORK LESS

Build a successful practice, work much less, increase your profits, get more satisfaction, create excellent value, enjoy life.

REGISTER TODAY 973 340 4484

START TO FINISH LIVE DEMONSTRATIONS

Dr. Puccio offers Live Demonstrations once every quarter so you can experience a restoration and ask questions specific to your needs. Space is limited to the first (6) Dentists who register. Call today!

LEARN THE SECRETS TO CEREC® SUCCESS WITH ONE OR TWO DAY TRAINING COURSES

Dr. Puccio will teach you the secrets to success of using and integrating Cerec® into your practice. You will learn to place predictable, successful Cerec® restorations in less than one hour. You will also focus on the front office daily issues, the insurance issues, and staff member responsibilities.

We blend art and medicine to create beautiful and natural smiles.

FRED A. PUCCIO, D.D.S
